DIGESTON.

DIGESTION is chiefly removed in the stomache, by the sid of a flaid which freely exades from the inner coats of the organ, when in a state of beath, celled the Gastric Julee. This fluid is the Grant Select of the Food, the Purifying Preserving, and Shaulding Agent of the stomache and intestions. Without is there can be no digestion,—no conversion of food into blood, and no nutrition of the body, but rather a foot, torpid, painful, and distructive condition of the whole digestive aparatus. A weak, half doad, or injured atomache produces no good Gastile Juice and hence the disease, distress and ebility which remains.

PEPSIN AND RENNET.

PEPSIN AND RENNET.

PEPSIN is the chief element, or great Digesting Principle of the Gnatria Juice. It will sweeten patrid meat more effectually than asleraius, and will retard putrefaction mare powe fully than alcohol. It is also highly stimulating to the nervous system, and to the stemache and other digestive organs. It is found in great abundance in the solid parts of the human stomache, and in the stomache of animals, as the ox. caif, &c. It is the material used by farmers in making choose, called Remot, the effect of weich has long been the special wooder of the dairy. The curelling of milk is the first process of digestion. Remot possesses astonishing power. The stomache of a calf will cardie nearly one thousand times its own weight in milk. Baron Siebig states that, "One part of Pepsin dissolved in sixty thousand parts of water, will digest meat and other food." Diseased stomache produce no good Gastric Juice, Remet, or Pepsin.

THE GREAT DISCOVERY.

The TRUE DIGESTIVE FLUID, OF GASTRIC JUICE on be obtained from NATURE'S OWN SOURCE OF SUPPLY—THE HEALTHY STOMAGHE!— OF SUPPLY—THE HEALTHY STOMACHIE—
The puredigestive principle, Persix, may readily be
extracted from the stumache of animals resembling
man, thus forming so artificial digestive fluid, precisely
like the natural Gastric Juice, in its chemical powers,
and furnishing a complete and perfect substitute for it.

By the aid of Persix, or this Artificial Digestive
Fluid, the pains and evils of INDIGESTION DYSPEPSIA, AND LIVER COMPLAINT ARE
STEVDILY REMOVED, JUST AS THEY
WOULD BE BY A HEALTHY STOMACHE: the
food is properly converted into blood; the body is world be BY A HEALTHY STOMACHE, the food is properly converted into bloods the body is mourished good feath and vigor are rapidly imparted to the whole organization; and the digestive organishare with the rest in this happy result.

SCIENTIFIC EVIDENCE.

BARON LIEBIG in his celebrated work on Animal Chamistry, says. "An artificial Dignative Fluid, malogous to the Gastrie Juice, may be realily, prepared from the mucous membrane of the stomathe of the Calif, in which various articles of food, as mentand eggs, will be estimated, changed, and digested just in the same manner as they would be in the human stomach."

Dr. Pl. IELIKA, in his famous treatise on "Food and Diet." published by Foxlers & Wells New, York, pare 13. States the same great fact, and describes the membral preparation. There are few higher authorities than Dr. Percira.

Dr. COEBbit in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the Gustrie Juice is a promuent and all prevailing cause of Dyspensia" and he states that "a distinguished professors of meeticine in London, who was severely affiliated with this complaint, finding every thing class to fail, had recourse to the Gastrie Juice, obtained from the stomach of living animals, which proved completely and cassful."

Reputation of Townsend's Sarsaparilla, which had cost me thousands and tens of thousands of dollars.

"In a suit which I brought against this Jacob Townsend and Thompson, Skillman & Co., the firm by which he was employed, the so styled old Doctor recently made affidavit that he had no issuence whatever in the Sarsaparilla to which his name is affixed, and asks the court to let him off an that ground.

"Furthermore, I am the sole author and discoverer and the original proprietor of the medicine known as 'De. Townsend's Sarsaparilla." I have never offered 'old' Jacob Townsend a penny for his recipe, but was engaged in manufacturing the Compound Extract of Sarsaparilla for nearly eight years before either he or any one else, taking advantage of the great popularity of this medicine, undertook to counterfeit either the article or the name.

It has been computed, that during the last twenty years, three millions of persons have annually been benefited by the use of these Medicines; a fact which speaks volumes in favor of their curative properties—a single trial will place them beyond the reach of competition in the estimation of every patient. By their use the blood is restored to a pure and healthy state, freed from all impurities. The system is not reduced during their operation, but invigorated, and they require no restraint from business or pleasure. The afflicted have in Moffat's Life Pills and Phænix Bitters, a remedy that will de for them all that medicine can possibly effect.

The genuine of these medicines are now put up with a fine steel engraved wrapper and labels, and copy right secured according to the laws of the United States.
